

Terms and Conditions

1. Parties

This Cloud Computing Agreement (hereinafter referred to as the "agreement") is an agreement, which is an offer invitation (invitation ad offerendum) on the <https://avaxline.com/> website, that will take effect between avaxline.com website (hereinafter referred to as the "platform") and the user by the user's connecting to the platform by a crypto wallet (accepting the invitation).

2. Definitions

2.1. Platform : refers to the avaxline.com website interface.

2.2. User : refers to any real person connecting to the avaxline.com website by crypto wallet (TrustWallet, Metamask ext.) and benefits from infrastructure, smart contract, platform and software services.

2.3. Agreement : refers to this mixed-type sui generis contract executed between the platform and the user.

2.4. Cloud Computing: is the general name of internet-based computing services.

2.5. Blockchain : is the name given to the registration base where data is stored on a distributed network without the need for any center or authority.

2.6. Blockchain Platform : refers to a multi-purpose blockchain that mediates generation and distribution of cryptocurrencies or exchange of digital assets between users. (Ethereum, Avalanche, Binance (BNB) Smart Chain, Tron etc.)

2.7. Cryptocurrency : refers to a payment tool with material value that is encrypted with extremely complex code systems using cryptographic protocols.

2.8. Cryptography : refers to all methods used to transform the information contained in a readable data into a form that cannot be understood by unwanted parties.

2.9. Smart Contract : refers to a decentralized platform that enables transactions on the data on the Blockchain network in a predetermined flow and verified by a secure computer network. Such contracts, which are not legally binding, are uploaded to the blockchain network by signing cryptographically by agreeing on the content of the chain.

2.10. Distributed Ledger Technology: refers to a multilateral system in which participants agree on a set of shared data and their validity without a central coordinator.

2.11. Coin : refers to a currency-like digital value representation that has its own blockchain platform and can operate independently of a project and can be used as a payment method.

2.12. Token : It has emerged as another application example of distributed ledger technology other than cryptocurrencies. It refers to digital crypto assets that represent a certain value or utility within a project ecosystem on an existing blockchain. (Examples of this include projects built on smart contracts of Ethereum, Avalanche and Binance (BNB) Smart Chain)

2.13. Fiat Currency : refers to bank paper or paper money used for the exchange of goods and services, which is issued based on government decision, has no equivalent in gold, silver, etc., and is established on the reliance on the undersigning authority and that the paper issued by it cannot be counterfeited. Currencies in circulation today is fiat currency.

2.14. Crypto Wallet : A crypto wallet is a program that stores private keys and public keys and interacts with blockchains to allow users to send and receive digital money and monitor their balances. (Examples: TrustWallet and Metamask)

2.15. Cryptocurrency Exchange: refers to platforms that serve for exchanging cryptocurrencies, trading and converting fiat currencies with cryptocurrencies.

2.16. AVAX coin : is the native cryptocurrency of the Avalanche Blockchain.

2.17. USDT : Tether stable cryptocurrency equivalent to USD.

2.18. Staking : refers to gaining profits by locking cryptocurrencies into the system. Network participants will earn periodic rewards with a commitment to keep their cryptocurrencies in their wallets (not to transfer or use in any other transaction) for a certain period of time.

2.19. Independent Merchant Assistant (Representative): refers to the real person with the title of user under this agreement who helps the platform in delivering the platform's work to potential users and who makes profits in return for this help if the potential users reached by him acquires the title of "user" under this agreement.

2.20. Network Marketing : refers to a form of sales, also known as network marketing or multi-level marketing.

2.21. Level : determines the titles and awards that independent merchant assistants will earn within the system if they achieve the goals specified in the commission plan with their personal efforts within the framework of the commission plan determined by the platform.

2.22. Profit Plan : refers to the commission plan determined by the platform. It'll be hereinafter referred to as the "Commission Plan". The commission plan allows independent merchant assistants to earn bonuses and other rewards for the sales of their sponsored group (sub-pools).

2.23. Commission : It is the general name of the earnings that independent merchant assistants are entitled to as a result of their individual efforts according to the commission plan determined by the platform.

2.24. Sponsorship : refers to work improving and directing business skills which independent merchant assistants have to give to users aiming to become independent

merchant assistants. Each independent merchant assistant has agreed and committed in advance to sponsor other users included in his own pool who aim to become independent merchant assistants, in order to improve their business skills.

2.25. Representative (Pool) Portfolio: refers to the network of independent merchant assistants with vertical and horizontal relationships in between.

2.26. Sub-Representative : refers to independent merchant assistants who enter the representative portfolio under a representative and affect the upper representative with his activities.

2.27. Pool Branch : refers to the chain of representatives whose activities can be added to each other, consisting of sub-representatives affiliated to a representative (independent merchant assistant) and their sub-representatives, who are connected to each other by vertical lines from the top to the bottom (maximum 7 vertical lines).

2.28. Vertical Representative Relationship : refers to the relationship between a pool branch.

3. Term of the Agreement

3.1. This agreement is an indefinite-term agreement for each cryptocurrency to be produced by the user to benefit from the cloud computing platform / smart contract / software / infrastructure services provided by the platform.

4. Goodwill Rules

4.1. The parties shall act in good faith and in accordance with the principles of fair trade in fulfilling their obligations under this contract.

4.2. The terms of this agreement and all contracts to be executed between the parties in connection with the independent merchant assistants shall be based on the rules of good faith.

5. Subject of contract

5.1. This agreement is based on the electronic application made by the user on the avaxline.com website. It's an offer invitation, and the potential user's registration by connecting to the platform with a crypto wallet will mean acceptance of the invitation and the agreement will take effect, so every user registered on the platform will be deemed to have agreed to and acknowledged the terms of this agreement.

5.2. Although the subject of this agreement is delivery by the user to the platform of a certain efficiency share (production share) in consideration of provision of a range of services, including providing the opportunity to participate in the cloud computing that allows many people to come together and join their processing powers to create a cryptocurrency pool on a smart contract. Who bring in new users to the platform and accordingly aim to earn commissions in

consideration of such contribution as a user specified in this agreement, and the platform as well as to determine the rights and liabilities of the parties

6. General Provisions

6.1. Articles regarding the promotion of the platform to 3rd parties and the inclusion of new users in the platform only concern independent merchant assistants (representative).

6.2. This agreement is located on the avaxline.com website and is an offer invitation, and after a potential user registers by connecting own crypto wallet with the platform and transfers the minimum amount of AVAX coins required to the smart contract to the smart contract, such user is deemed to have acquired the title of user, and the agreement enters into force upon this registration and becomes binding on the parties.

6.3. No other written and signed contract shall be made between the parties. The user shall only be able to get a sample of the agreement by using the "print" button on the agreement page.

6.4. Users also reserve the right to become an independent merchant assistant (representative) if they meet the necessary conditions under this contract in order to be an independent merchant assistant, but there is no obligation in this regard. Each independent merchant assistant has the title of user and has the rights of those with the title of user, however, every real person with the title of user doesn't have all the rights of an independent merchant assistant; at this point, the rights of an independent merchant assistant are more extensive.

6.5. The relationship between the platform and the independent merchant assistant is a contractual relationship between two primary parties. Independent merchant assistants shall promote the platform by using their individual business and personal time using the tools to be chosen by them and the methods to be determined by them (provided that they comply with the platform's principles).

6.6. There is no employment agreement between the independent merchant assistant and the platform within the framework of Labor Law, Social Insurance and General Health Insurance Law and related legislation and no provisions of the Agreement and its attached documents can be interpreted in this way. The promotion of the platform under this agreement has been undertaken by the independent merchant assistant, who will generate income in accordance with the terms specified in the agreement over the profit obtained as a result of the relationship between the user and the platform, after the potential users to whom such promotion has been made acquire the title of user.

6.7. In order to be a real person user, the user shall connect to the platform with a crypto wallet (Trustwallet, Metamask, etc.) or complete the and transfer of the Avax coin the staking of which he wants to be performed for him, to the smart contract. In addition, the user is guided by independent merchant assistants on the avaxline.com website and thus user conditions are created electronically by repeating similar procedures.

6.8. Under this agreement, the user shall purchase the Avax coin he wants to stake from cryptocurrency exchanges and be entitled to exercise the power of cloud computing by transferring at least 0.1 units to the smart contract. The platform is not involved in nor has it any interest or responsibility in the Coin/Token purchase.

6.9. On the platform, engaged staked to the intended coin/token is staked by cloud computing. The coin/token that the user transfers to the platform's crypto wallet and earns through staking is not interpreted or requested as fiat money or its equivalent. On the platform, in documents or in media such as videos, the \$ expressions represent the USDT stablecoin. It cannot be interpreted or requested as fiat money. The platform has no commitments, obligations and responsibilities in terms of fiat money or its equivalent.

6.10. Regarding the cryptocurrency/currencies that the user wishes to stake, it is his own responsibility to meet the special conditions specified in the smart contracts of such cryptocurrency/currencies.

6.11. All deposits and withdrawals on the platform will be with Avax coin. Like every crypto currency, the price volatility of Avax coin in market conditions is known by the user. Usdt stable coin is only used in Usdt/Avax matching earnings calculations, but the user accepts that stable coins may also lose their stable status in market situations. The platform reserves the right in its place stable coin with another stable coin without prior notice.

6.12. The platform shall not be hereunder responsible for any actions it has taken due to the terms of the smart contracts of the cryptocurrency/currencies sent to contract in accordance with this contract, because it is not possible to carry out cryptocurrency in accordance with the blockchain technology when such terms are not met.

6.13. Upon fulfillment of the terms of the smart contracts of cryptocurrency / cryptocurrencies and once a person gains the title of user hereunder, the platform shall run the activity continuously and uninterrupted and fulfill the liabilities hereunder.

6.14. Within the scope of the staking activity conducted hereunder, the platform follows the current market conditions and tries to make profits for its users by producing with Avax earnings in negative market conditions and with Avax/Usdt matching earnings under stable and positive market conditions. In case of appropriate conditions, Avax earnings can be reached at a maximum of 265% USDT (Usdt for Avax) annually, including the amount of stakes made. The platform does not undertake fixed or guaranteed earnings, rates may vary for each user.

6.15. In consideration of the service provided by the platform, each staking package is staked in smart contract for 365 days, 18% of each cryptocurrency staked for the contractual activity is distributed to independent merchant assistants according to their level in accordance with the commission plan (Pool Bonus), 3% is transferred to the platform's accounts as starting revenue of the obligations and activities performed by the platform. %95 of the cryptocurrency gained under staking activity that will fall to the user's share are transferred to the user's crypto wallet, 5% is transferred to the platform's accounts as revenue in return for the obligations and activities performed by the platform hereunder.

6.16. The platform reserves the right to increase/decrease the number of vertical lines (depth) and percentage commissions in commission plan specified on the pool branch.

6.17. The user has to personally purchase the cloud computing power service offered through the avaxline.com platform. In the event that an independent merchant assistant registers a person in his representative branch without the consent and/or knowledge of the respective person, or makes a user login with false information, the independent merchant assistant shall be immediately removed from the portfolio.

6.18. The tax liabilities that will arise due to the rewards gained and the crypto money produced shall entirely rest with the users who have gained such rights. The platform commission plan is based on good faith, commercial practices of developed countries and integrity principles. The platform commission plan is based on promoting the platform and reaching potential users. An independent merchant assistant is an independent contractor whose success or failure depends on his own personal effort. The significant purpose of the platform commission plan is to increase the recognition of the platform and contribute to reaching users more quickly. Independent merchant assistants are not platform executives either.

6.19. Intellectual and industrial rights, especially platform brands and logos, cannot be used without permission on any medium without the written consent of the platform. The platform cannot be held responsible for any damages that may arise as a result of the mistakes made by independent merchant assistants during the promotions to potential users. Independent merchant assistants shall be entitled to carry out all kinds of promotions, advertisements and similar activities, provided that they comply with all contracts, especially the framework stipulated by government authorities and the contract they executed with the platform.

6.20. The platform reserves the right to inspect and/or warn independent merchant assistants at any time. The user has to complete the registration form himself on the avaxline.com platform. In the event that an independent merchant assistant registers a person without the consent and/or knowledge of the respective person, or makes a user login with false information, the independent merchant assistant shall be immediately removed from the platform and shall not be entitled to make any claim on this matter.

6.21. The user can use the activity performed by the platform hereunder only on his own behalf in order to benefit from the rewards and staking cryptocurrency as well as to note any possible risks. Any act in breach of this article of the agreement may be considered as a reason for unilateral termination of this agreement by the platform.

6.22. The platform and the activity subject to this agreement are only available for a registered user with an active personal account.

6.23. Any user who has received cryptocurrency to his crypto wallet on the platform agrees that all incoming transactions are made in return for the activity hereunder and that he earns profit or loss from staking in proportion to the power provided by him to pool.

6.24. The user shall be personally responsible for maintaining, increasing or decreasing the power provided by him to staking through the avaxline.com website.

6.25. There may be changes to this agreement, published by the platform and concluded between the parties, over time. Such changes shall be announced to the users on the avaxline.com website. The user is obliged to review the relevant changes and accept such changes before making a request. Any user who continues to use the platform after any change is made in the agreement shall be deemed to have accepted such change in the agreement. Otherwise, the platform shall be unable to claim benefit of the activity subject to this agreement provided by the platform.

6.26. The platform commission plan is based on ensuring that the activity provided by the platform, which is the subject matter of this agreement, reaches more users, thereby expanding the pool and making the power of production activity more effective.

6.27. An independent merchant assistant is an independent contractor whose success or failure depends on his own personal effort. The independent merchant assistant may promote the platform to third parties, who are potential users, in order to form its own representative branch, provided that it is in accordance with the relevant legislation and the documents prepared by the platform.

6.28. If any potential users to whom independent merchant assistants have made promotions acquire the title of user due to such promotion, such user shall be added to the "Representative Branch" of the Independent Merchant Assistant who has made the promotion to him. The independent merchant assistant shall receive a reward/bonus at the rates specified in the agreement from the amount of cryptocurrency falling to the share of the user he has brought in to the platform as a result of the activity subject to this agreement, however, he shall not be entitled to any commission/premium/reward as a result of his bringing in a user to the platform, if such user acquires the title of independent merchant assistant. This agreement does not oblige the user or independent merchant assistant to reach potential users by promoting the platform. Nevertheless, if these actions are not taken, revenues obtained as a result of the activity subject to this contract will continue to be paid to the crypto wallets of the said real persons but these real persons will not be able to benefit from the "Level" payment.

7. Provisions about Level Commission

7.1. After the basic condition of being a user is fulfilled, level bonuses shall be distributed in accordance with article 7 of this protocol.

7.2. If Independent Merchant Assistants acquire the title of user pursuant to this agreement after transferring AVAX cryptocurrency for investment to the smart contract and then acquire the title of independent merchant assistant under this agreement by engaging in the activity of bringing in new users to the platform, they earn levels according to the level status of the real people in pool (representative) branches and the investment they have added to the pool. There are 8 different levels.

7.3. For individuals with a personal active staking volume of 30-99 Usdt/Avax, Pool-1 will be activated and such individual will be able to earn Level 1 commission. As a result, such

individual shall become entitled to earn 9% bonus resulting from the staking activity of the user who is connected to his own representative branch at the top level of the vertical depth. Can be get the maximum bonus of 5x individual active staking.

7.4. For individuals with a personal active staking volume of 100-249 Usdt/Avax, Pool-2 will be activated and such individual will be able to earn Level 2 commission. As a result, such individual shall become entitled to earn 4% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at second level from the top, in addition to the bonus to be achieved from the top level of vertical depth. Can be get the maximum bonus of 5x individual active staking.

7.5. For individuals with a personal active staking volume of 250-499 Usdt/Avax, Pool-3 will be activated and such individual will be able to earn Level 3 commission. As a result, such individual shall become entitled to earn 2% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at third level from the top, in addition to the bonuses to be achieved from the top two levels of vertical depth. Can be get the maximum bonus of 6x individual active staking.

7.6. For individuals with a personal active staking volume of 500-999 Usdt/Avax, Pool-4 will be activated and such individual will be able to earn Level 4 commission. As a result, such individual shall become entitled to earn 1% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at fourth level from the top, in addition to the bonuses to be achieved from the top three levels of vertical depth. Can be get the maximum bonus of 7x individual active staking.

7.7. For individuals with a personal active staking volume of 1.000-1.999 Usdt/Avax, Pool-5 will be activated and such individual will be able to earn Level 5 commission. As a result, such individual shall become entitled to earn 1% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at fifth level from the top, in addition to the bonuses to be achieved from the top four levels of vertical depth. Can be get the maximum bonus of 8x individual active staking.

7.8. For individuals with a personal active staking volume of 2.000-3.999 Usdt/Avax, Pool-6 will be activated and such individual will be able to earn Level 6 commission. As a result, such individual shall become entitled to earn 0,5% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at sixth level from the top, in addition to the bonuses to be achieved from the top five levels of vertical depth. Can be get the maximum bonus of 9x individual active staking.

7.9. For individuals with a personal active staking volume of 4.000-9.999 Usdt/Avax, Pool-7 will be activated and such individual will be able to earn Level 7 commission. As a result, such individual shall become entitled to earn 0.5% of pool bonus resulting from the staking activity of the user who is connected to his own representative branch at seventh level from the top, in addition to the bonuses to be achieved from the top six levels of vertical depth. Can be get the maximum bonus of 10x individual active staking.

7.10. Individuals with a personal active staking volume of 10.000 Usdt/Avax and above, will be able to earn Level 8 (VIP) commission. As a result, it deserves unlimited bonus from the top seven vertical depths.

7.11. It is based on Usdt/Avax (Avax for Usdt amount) at the beginning of the stake.

7.12. Independent merchant assistants with a level shall continue to receive their level commissions as long as they meet the level requirements mentioned above. If they do not meet the relevant requirements, they may fall from their current level to lower levels or they may lose their levels completely.

7.13. Independent merchant assistant agrees in advance to application of frozen (locked) balance at %30 to the income payments under the name of commission/bonus/premium from the Levels that he has activated by meeting the requirements, to the introduction of additional requirements into releasing.

8. Non-competition and Confidentiality

9.1. The user shall not use or copy the platform's trademarks and patents, intellectual and industrial working rights, software and programs, logos and patented working model of the platform, shall not share the acquired information with third parties, shall not share or comment on or open a page about the same over the internet or social media (Facebook, Twitter, Instagram, LinkedIn, etc.), shall not engage in unfair competition, even partially, directly or through third parties, either while he is a user or after this title has terminated, and shall not enter into implicit or explicit competition with the platform, shall not make propaganda against the platform before individuals and groups.

9. Responsibilities of the User

9.1. The user is obliged to inform the platform of his crypto wallet number without error. Any damages arising from incorrect reporting of the user's crypto wallet number, closing or restriction of the user's crypto wallet shall be borne by the user, and the platform shall have no responsibility in this regard.

9.2. The user is entitled to choose whether to become a registered cloud computing power user or not. If the user chooses to become a registered user of cloud computing power, he can create his own account. Naming and use of accounts shall comply with applicable laws and regulations and network ethics. The account shall not contain any insults, threats, obscene, verbal abuse or other words that violate the legal rights of others.

9.3. The user is obliged to properly store the platform cloud computing power account and password, his wallet adress and verification code. The user shall be fully responsible for the security of his username, password, his wallet adress. The user shall be responsible for any legal consequences arising from the disclosure of the username, password, wallet adress and

security key for the user's reasons. The platform shall not be responsible for the loss of property caused by the disclosure of such information for the user's own reasons.

9.4. Users shall not be allowed to misuse the platform and infrastructure by any means, including but not limited to multiple account registrations for profit, speculation, cash out, rewards, etc. The user shall not embezzle other user accounts. If the user acts in breach of the above regulations, the platform shall be entitled to directly take all necessary actions to cancel the benefits derived from such breach and even to fulfill the legal liability of the user through litigation.

9.5. Users are prohibited from using platform and infrastructure as any place, platform or medium to engage in various illegal activities. Users may not borrow the name of this platform to engage in any business activity or use it in any way as a place, platform or medium for business activities without the authorization or consent of the platform.

9.6. Once the user agrees and declares that the information entered in the registration form is true, complete and current, he agrees and declares that he shall be solely liable for any damages arising from untrue, incomplete and obsolete information.

9.7. The maximum number of accounts a user can have is one. That account shall be assumed to be managed and used by the user whose information is included in the registration form of that account.

9.8. It is strictly forbidden to use errors in the design of any part of the platform, infrastructure and software, undocumented features, and/or "program errors" for commercial/personal gain or as a means of doing so and to interrupt and destabilize the activity.

9.9. The User undertakes not to do the following and to remedy any damages that may occur otherwise: Do reverse engineering, create derivative work, exploit any part of the platform commercially in any way beyond the scope of contract, use any robot, spider, site search/retrieval application or any other device to retrieve or index any part of the platform, request comments about the platform and share these comments with other users, try to collect data about other users, create user accounts by automated means or false or fraudulent behavior, use the platform to compromise or gain unauthorized access to any computer or computer network or other devices or systems (including unauthorized attempts to discover passwords or security encryption codes), take any action that imposes an unreasonable or disproportionately large data or traffic load on the platform or in the IT infrastructure used to operate and make the platform available in our sole discretion.

9.10. User must be over the age of 18 and mustn't be legally convicted of infamous crimes. The platform reserves its rights for users who are under the age of 18 and make false statements during the login phase.

9.11. The user agrees that he has read and understood the terms of this agreement on avaxline.com website, that he's mentally competent, that there's nothing that limits or revokes his legal capacity, and that he meets all requirements to become a user.

9.12. The user declares that since he is a party to this agreement, he agrees to the terms and conditions which will be determined by the platform and included in the agreement, that the platform is entitled to make changes in these terms and conditions in the future, and that he agrees to all terms conditions written in the agreement as well as future updates thereof.

9.13. The user agrees to refrain from behaviors that may cause harm to the image and reliability of the platform, brand value or user portfolio, to respect the platform's vision and mission, to be responsible for the consequences of damages he may cause to the platform due to his personal behavior and to indemnify the platform for such damages.

10. Provisions Regarding Liabilities Specific to Independent Merchant Assistants

10.1. Under this heading, the liabilities of users who have the title of independent merchant assistants have been set out.

10.2. Users who want to become an independent merchant assistant shall include users in their representative branch by promoting the platform.

10.3. The platform may be promoted to potential users using the principles and practices included in the Plan, Handbook and similar documents published by the platform.

10.4. Independent merchant assistants cannot in any way introduce themselves as the dealer/guardian or official representative of the platform, except as independent merchant assistant, and cannot use the platform name in their own advertisements or stationery materials. Independent merchant assistants do not own any rights on the platform. The platform cannot be held responsible for any damages that may arise as a result of the mistakes of independent merchant assistants.

10.5. The primary purpose of independent trader assistants is increase the number of real people using the platform as a result of the platform reaching more users and adding more users to the pool.

10.6. Independent merchant assistants must keep records of the users they have brought into the platform. Independent merchant assistants are personally responsible for following up the Levels. The platform shall not be responsible if independent merchant assistants haven't reached the level required in accordance with the commission plan. An independent merchant assistant is obliged to exercise care on issues such as not making any claims on any subject on/for which he is not an expert or authorized and not recommending applications.

10.7. It is forbidden to offer becoming a user to people who have been invited by another independent merchant assistant by doing a promotion and offered to become a user.

10.8. The sponsor of an independent merchant assistant, i.e., the person who includes the independent merchant assistant as a user, is responsible for ensuring performance of this agreement.

10.9. An independent merchant assistant shall be entitled to identify himself as an independent promoter of the platform and use the approved logo of the platform on his business cards, other stationery and advertisements. Independent merchant assistants cannot in any way introduce themselves as the dealer/guardian or official representative of the platform, except as independent promoter, and cannot use the platform name in their stationery or advertisements.

10.10. The platform shall not under any circumstances be liable for any funds owed or debts incurred by an independent merchant assistant to/for any user/potential user.

11. Payments

11.1. As soon as the rewards/bonus/coins/tokens gained by the users under activity subject to the agreement are obtained, they will be reflected on the users' panels on the avaxline.com platform. The amount of crypto money that users will request to withdraw must be more than 1 of the crypto money subject to the activity. The amount of cryptocurrency that can be requested for withdrawal is specified on the platform for each cryptocurrency, and the platform can reduce/increase the amount of withdrawals that can be requested, set and change the delivery time.

11.2. Users are responsible for the payment of taxes on the income they have gained from platform activities and received in their crypto wallet addresses. The platform does not have any responsibility in this regard, as countries continue to work on taxation efforts regarding cryptocurrencies.

11.3. The user is solely responsible for the accuracy of the payment, including but not limited to the target account, transferable amount and payment details.

12. Risk Statement

12.1. Transactions with cryptocurrencies are transactions that involve risk. Cryptocurrencies are unregulated and decentralized so their value is not guaranteed/insured by any legal entity. The reward rates specified in this agreement and the income rate that the platform will obtain from the user due to the activity subject to the agreement can be changed by the platform due to a number of factors beyond the control of the platform. These factors include the variation of staking parameters/properties, the fluctuating price of cryptocurrencies, hardware obsolescence, and hardware depreciation. Due to the nature of cryptocurrencies, it should be taken into account that any cryptocurrency can increase in value or lose all its value at any time. In addition, the user shall be responsible for the management of cryptocurrencies in the crypto wallet, as well as any losses or expenses incurred by any third party organization. The user acknowledges this risk element.

12.2. There is a risk of losses as a result of any purchase or sale transaction in a market. Cryptocurrency actions have specific risks that are not usually shared with fiat currencies or

goods or commodities in a market. Unlike fiat currencies, which are backed by governments or other legal entities, or by commodities such as gold or silver, cryptocurrencies are backed by technology and their perceived market value.

12.3. Any information regarding cryptocurrency staking and cryptocurrencies published or provided by the Platform through any channel or any communication means is not recommendation for investment or legal advice.

12.4. The user shall decide to take action by examining the characteristics, purpose, scope and features of the activity subject to this agreement, and it is his responsibility to conduct detailed research on this matter. The platform shall have no commitment or responsibility for these issues.

13. Advertising

13.1. Advertising, including flyers, can be expensive and time-consuming. Independent merchant assistant may choose to advertise at its own discretion. Based on this preference, he should definitely state in its advertisements that the platform involves an element of risk like any other commercial activity, and that it is possible to gain income but it's also possible to incur damage in case of interruption of commercial activities or force majeure. In this respect, independent merchant assistants cannot make promises that are not specified in this agreement and that are not covered by this agreement.

13.2. Independent merchant assistants shall not undertake that potential users will be able to make a lot of money with a small investment or that they will get a guaranteed profit.

13.3. Independent merchant assistants shall not state that the platform will continue forever for any reason whatsoever.

13.4. Independent merchant assistants shall not aim to gain benefits by cheating or misleading people who have the potential to bring in users to the platform and by destroying their will.

13.5. Independent merchant assistants shall not use any matter not specified in this agreement for promotional purposes.

13.6. Otherwise, he agrees, declares and undertakes in advance that the responsibility arising from breach of these terms shall rest with him and that the platform shall have no responsibility.

13.7. Talking face to face is the most useful method in the platform's activities subject to this agreement. However, all independent merchant assistants who want to advertise shall first make sure that all their advertisements are legal, decent and honest, and shall use printed and visual materials approved by the platform, regardless of the type of advertisement to be made by them.

13.8. Any independent merchant assistants using advertisements that have not been approved in writing by the platform shall be solely responsible for investigations, damages and possible loss of rights arising from such advertisements. If an independent merchant assistant invites

other independent merchant assistants or potential users to a meeting, he shall clearly state the purpose of the meeting in this invitation and state that the people invited to the meeting do not have to use the platform infrastructure/software and explain the operation of the system to them clearly and in writing.

13.9. Those invited shall be given details about the person they have contacted, including phone number, fax number and e-mail address, if any. In case independent merchant assistants want to use other advertising materials, they are obliged to investigate whether such materials comply with the advertising principles and this agreement before using them.
